

Secure, sovereign file collaboration

Flexible. Available. Encrypted.

Business needs

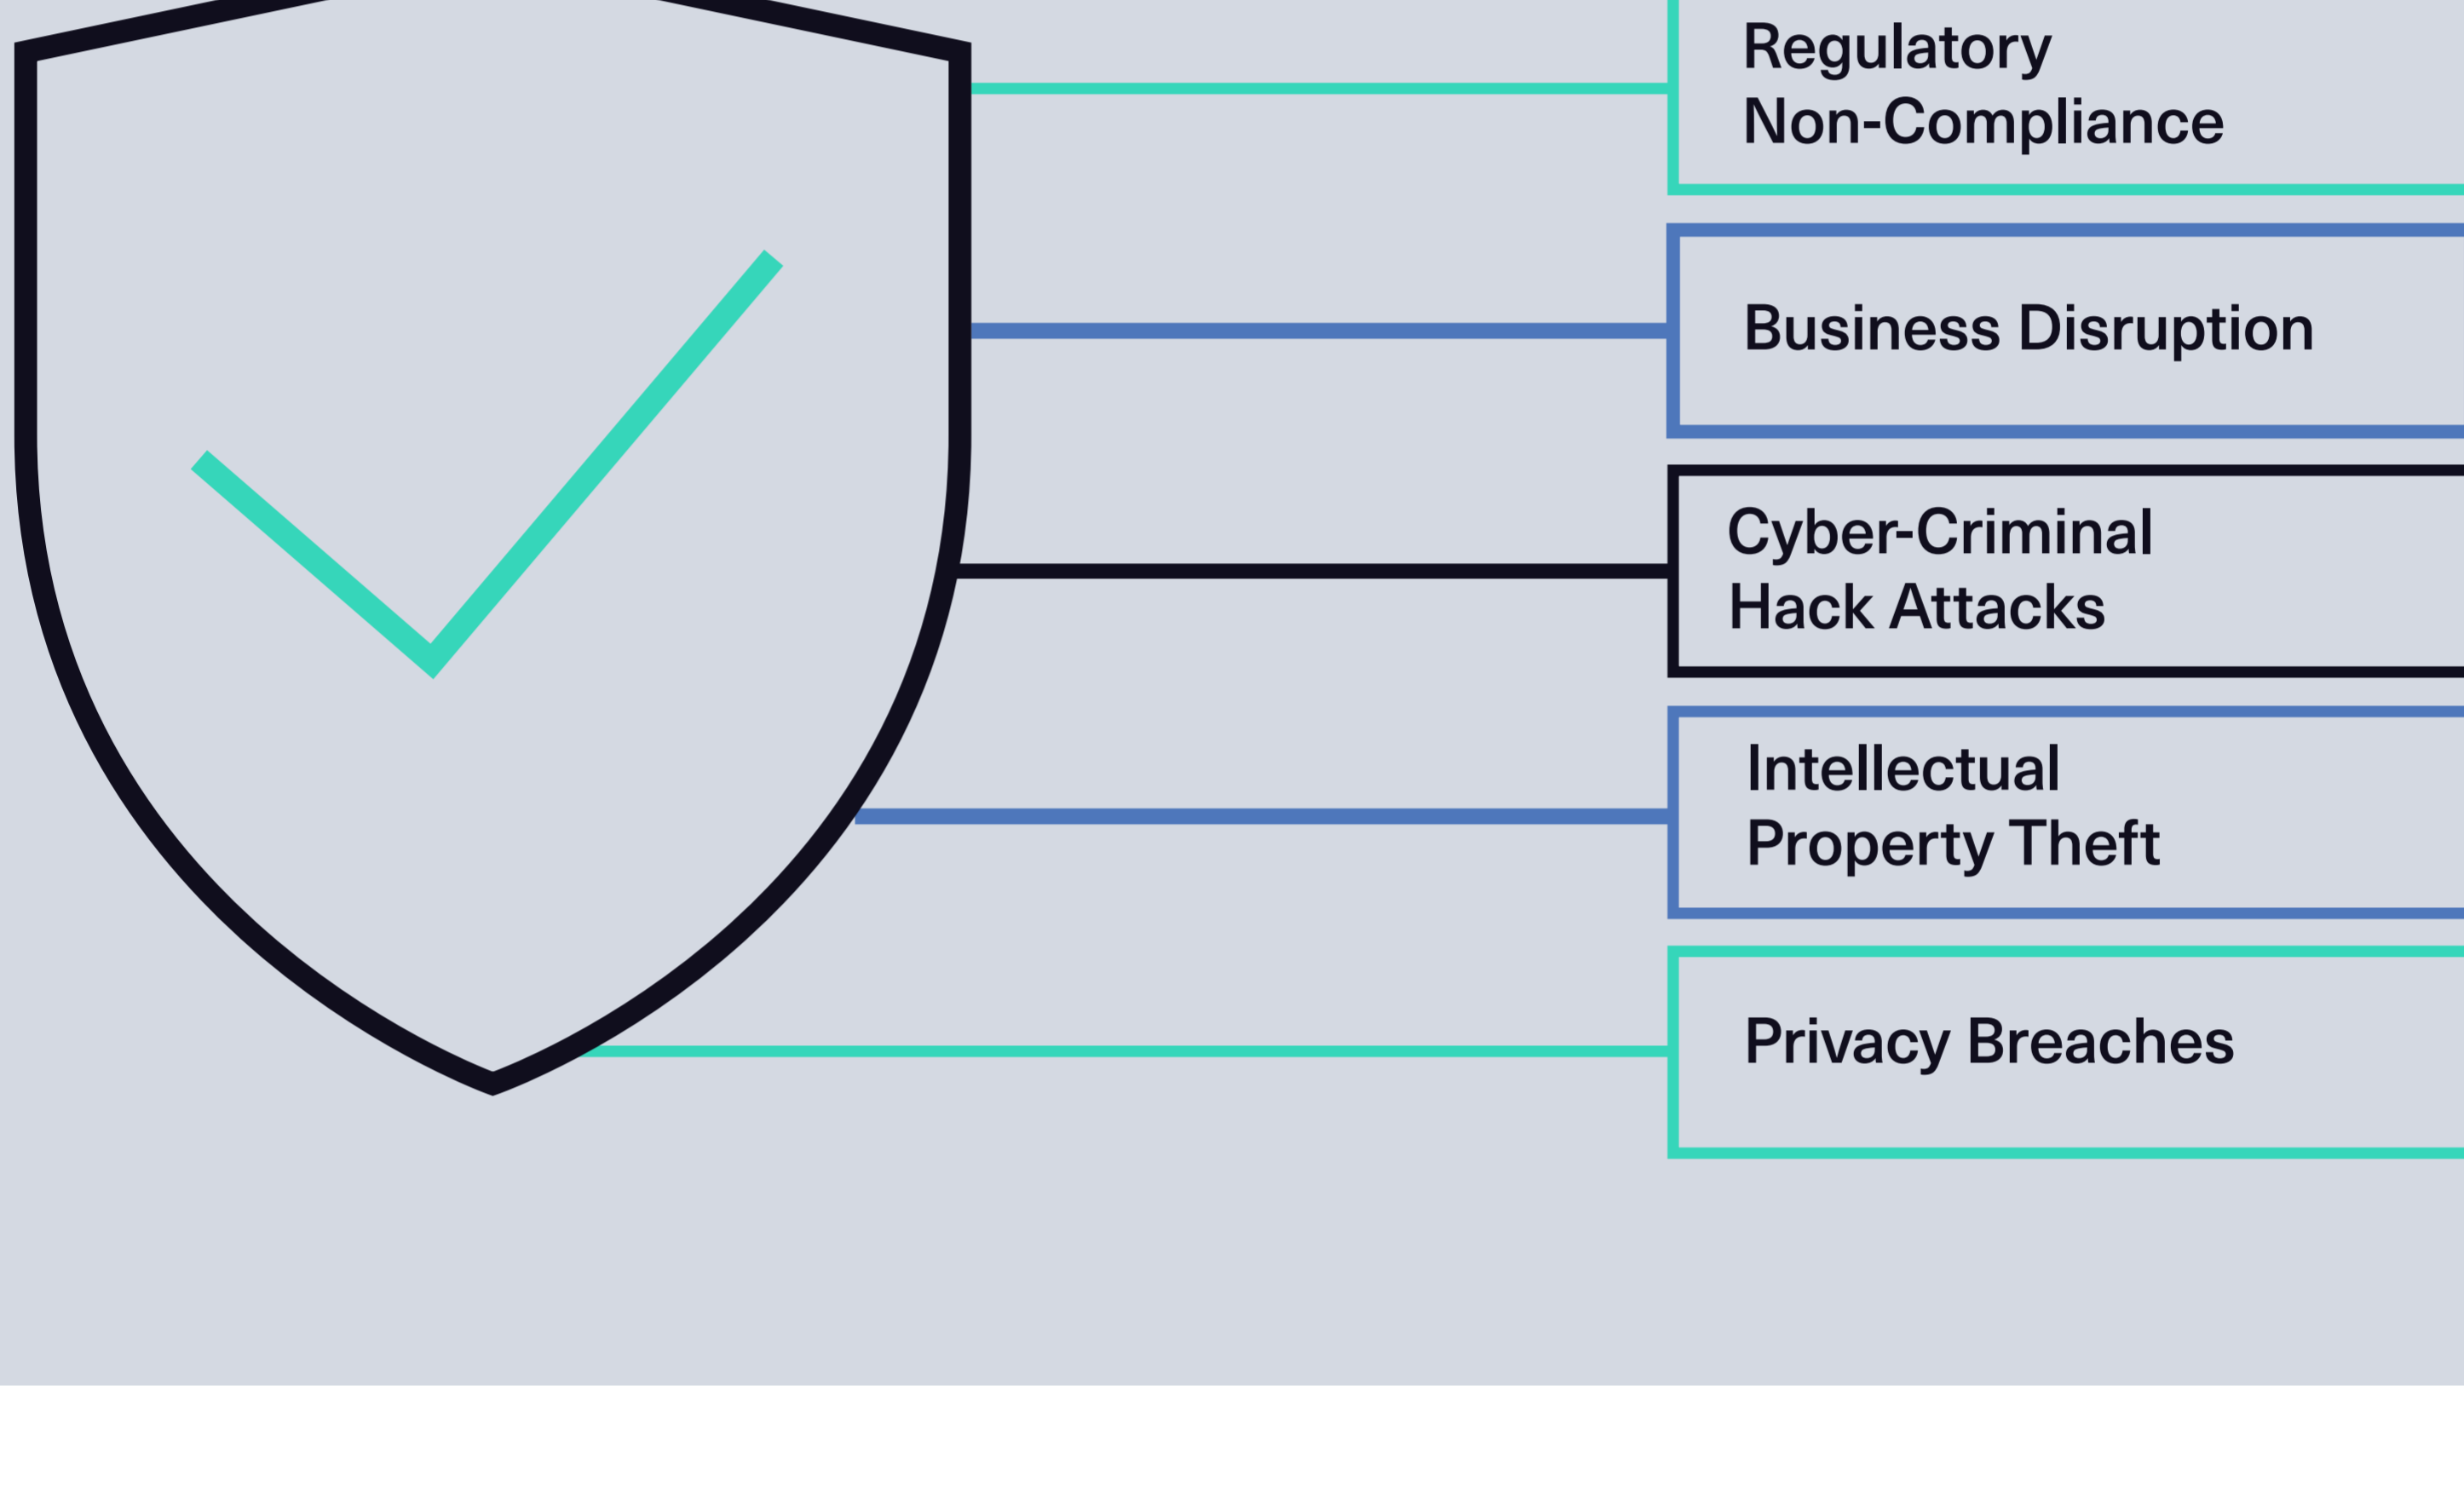

Overview

Easy to use, featuring seamless integration with Microsoft 365, Azure and Active Directory, SureDrop enables secure collaboration wherever you are.

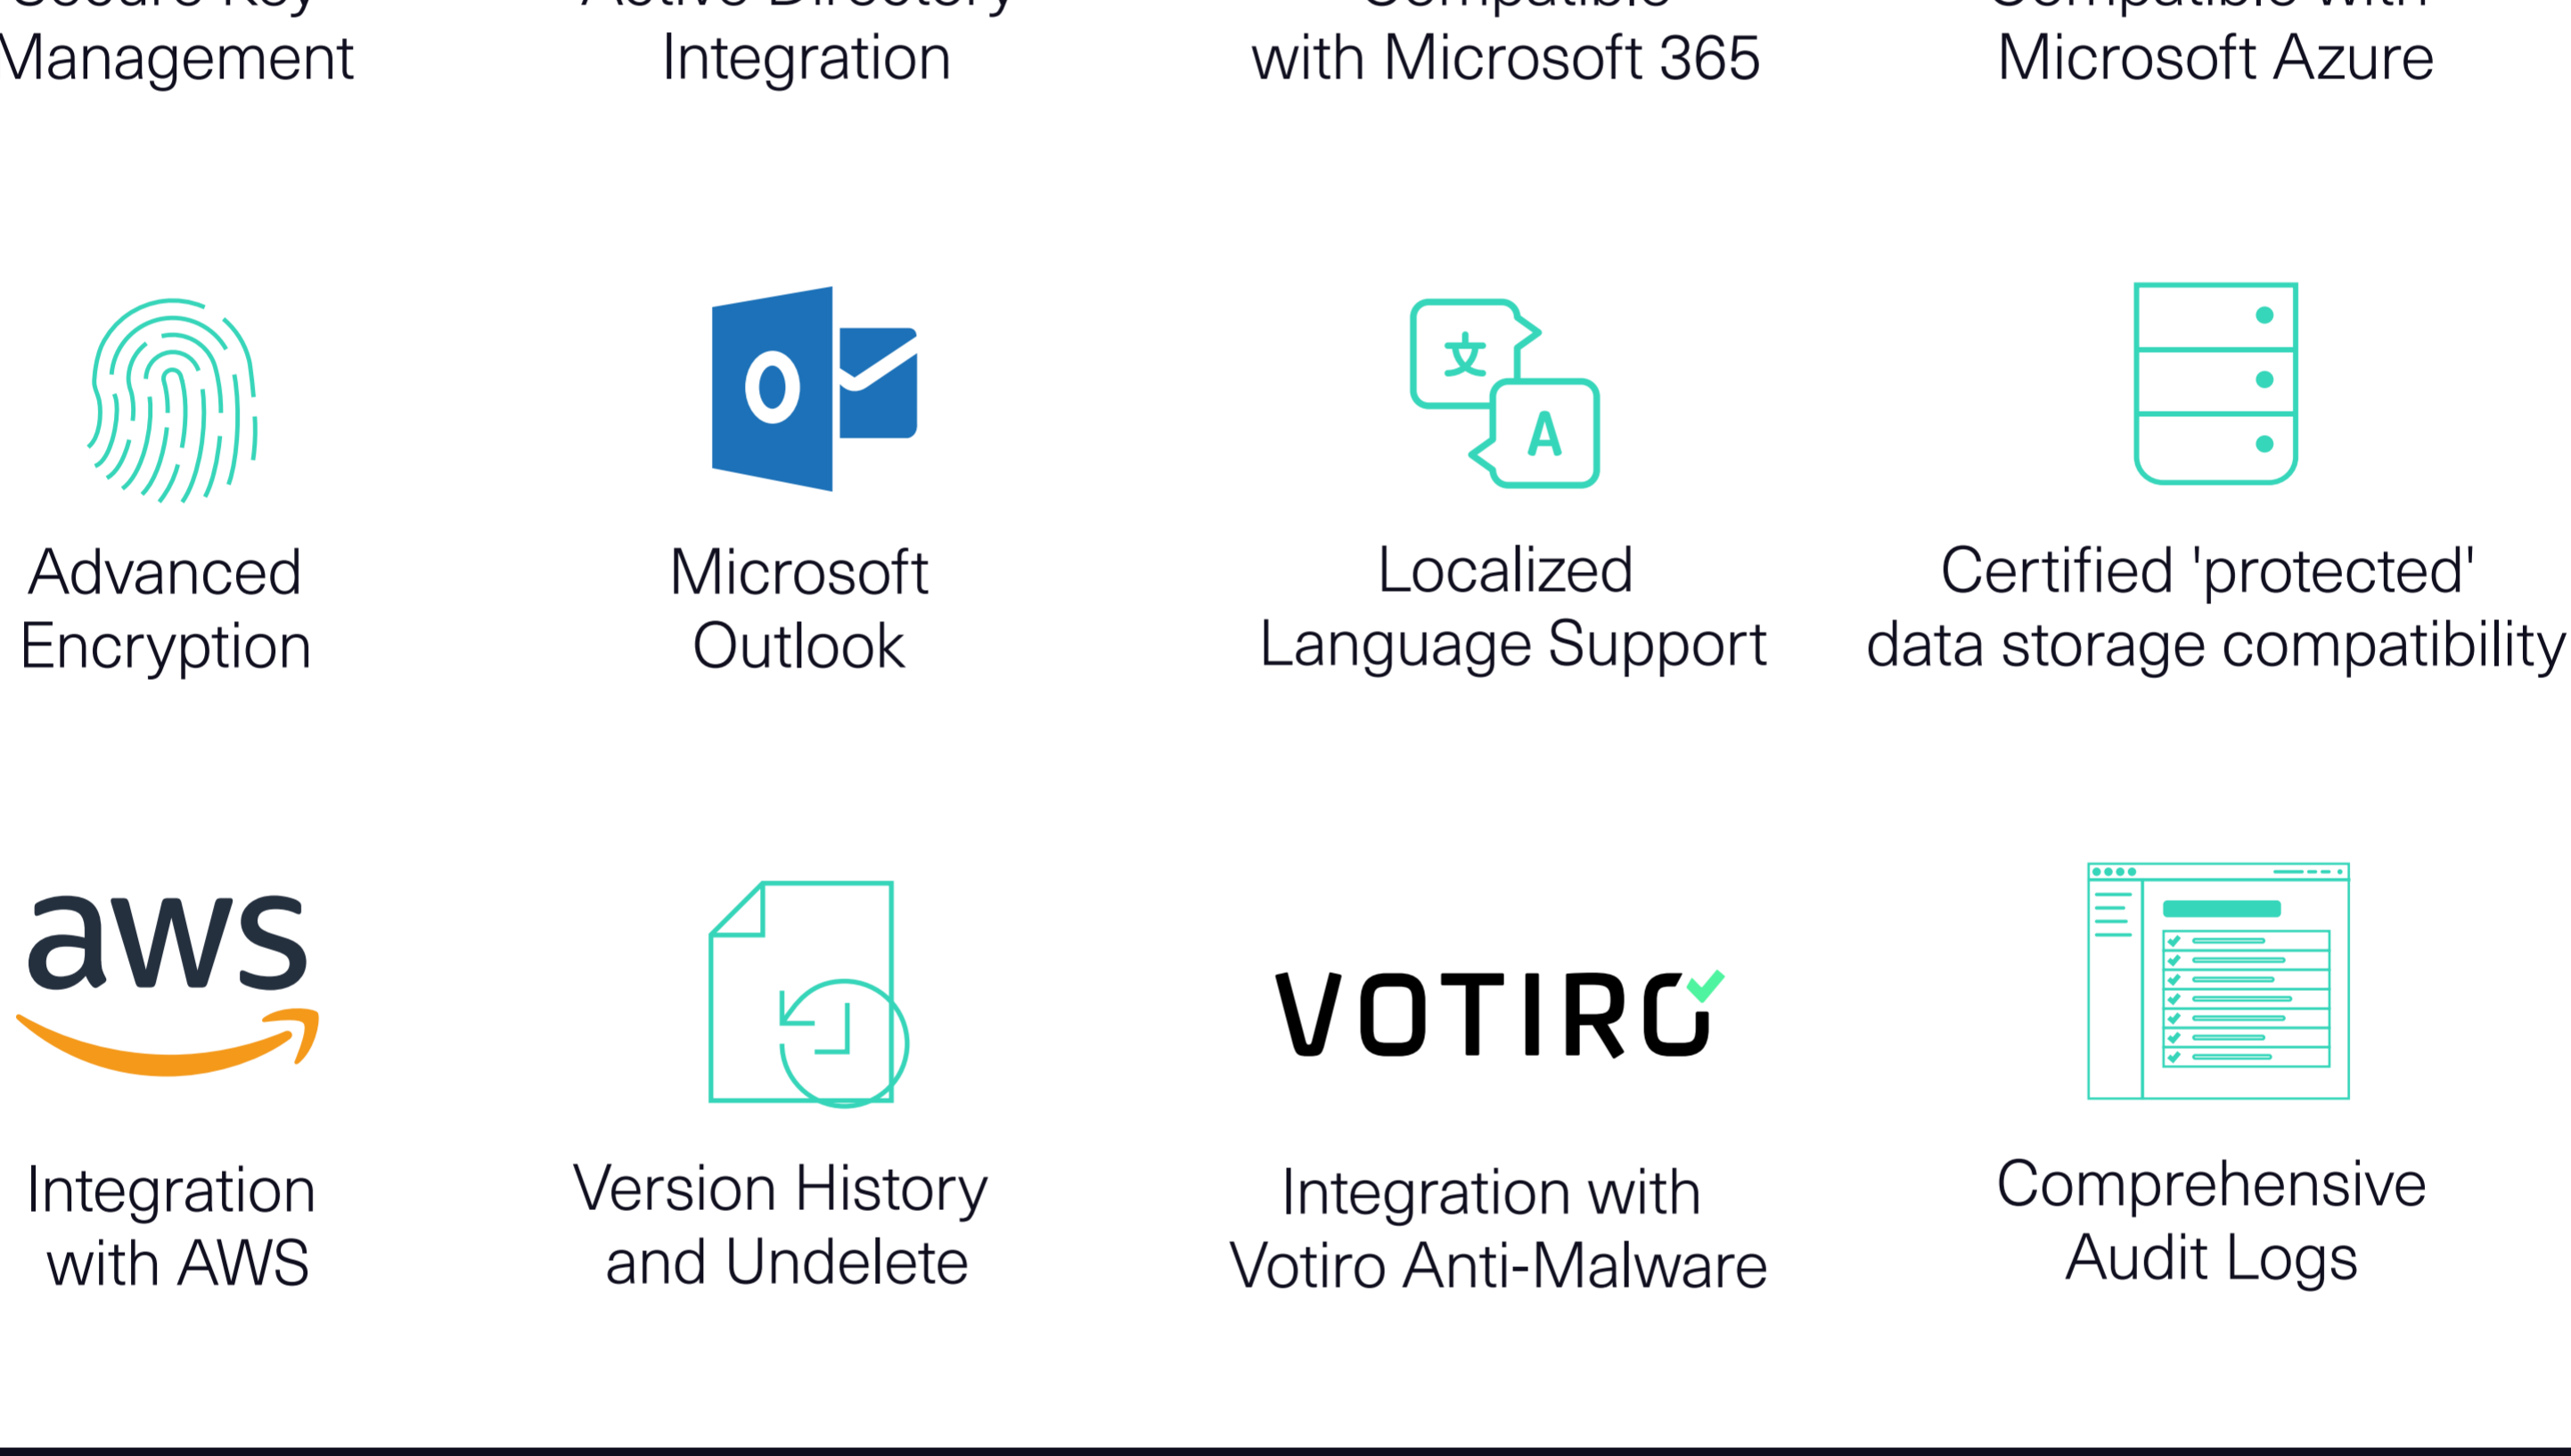

Suredrop protects against...

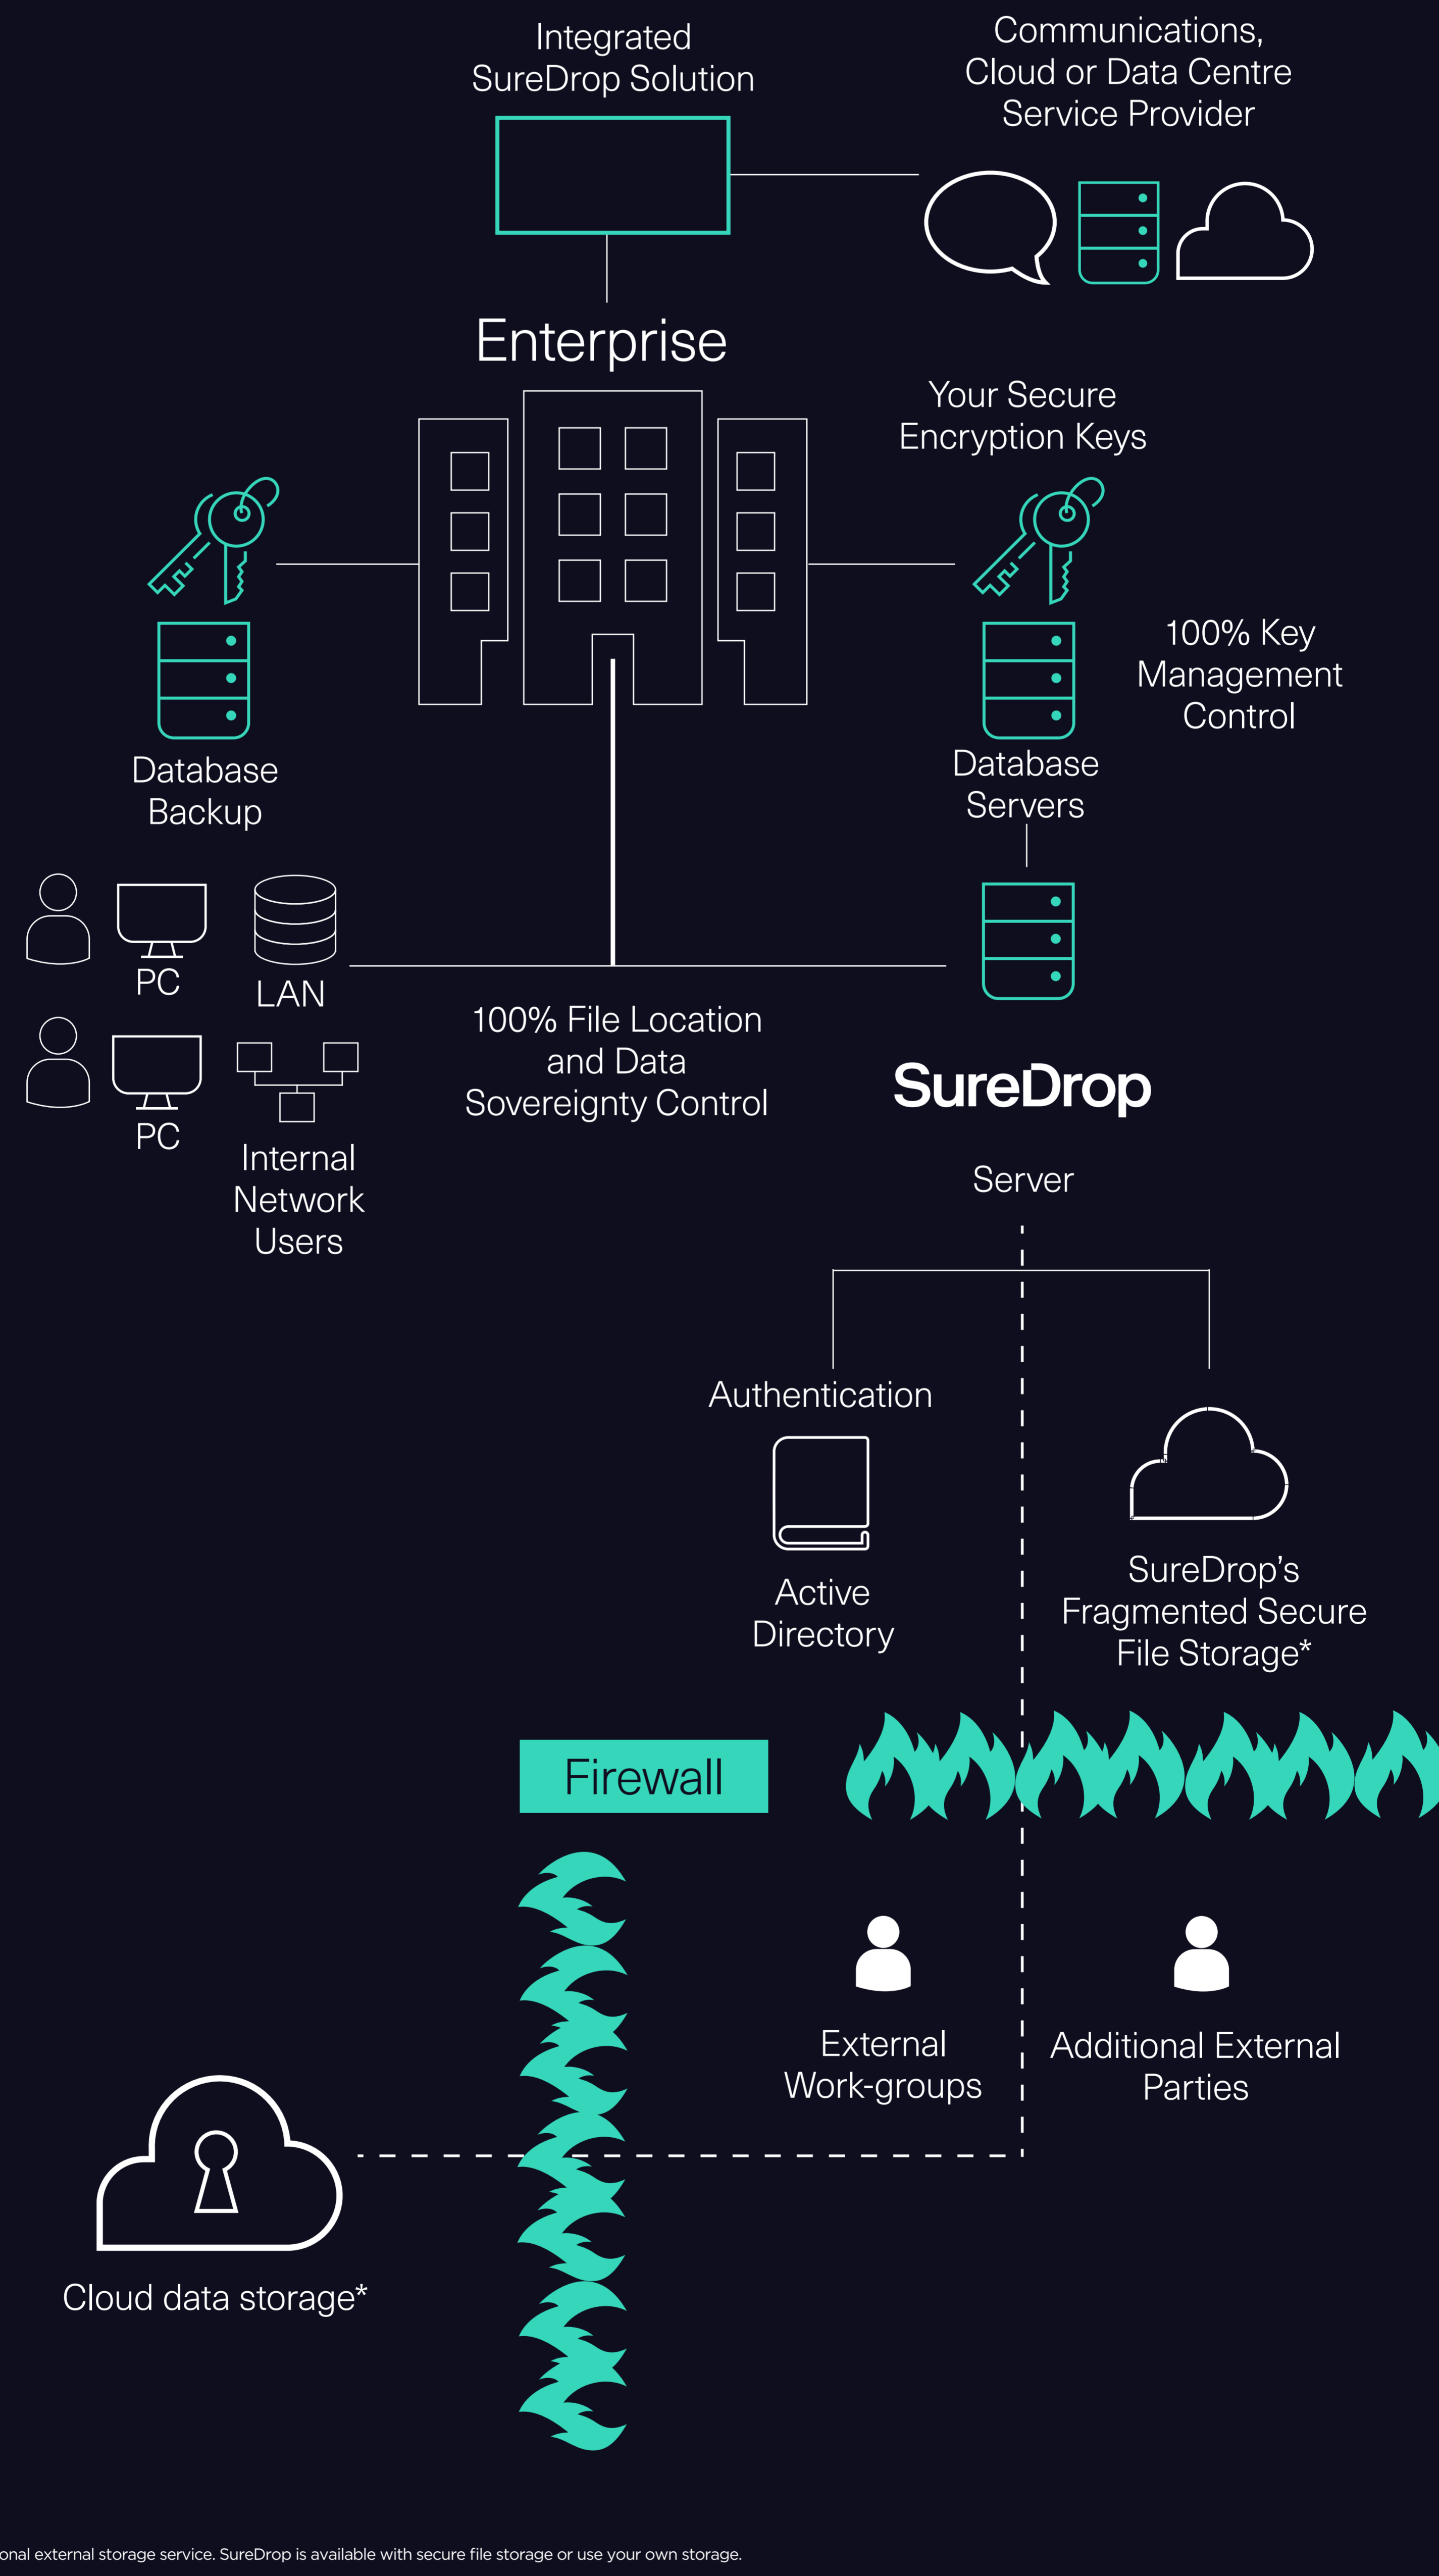

Features and benefits

SureDrop combines an intuitive user experience with a full suite of security tools, letting you collaborate without worry.

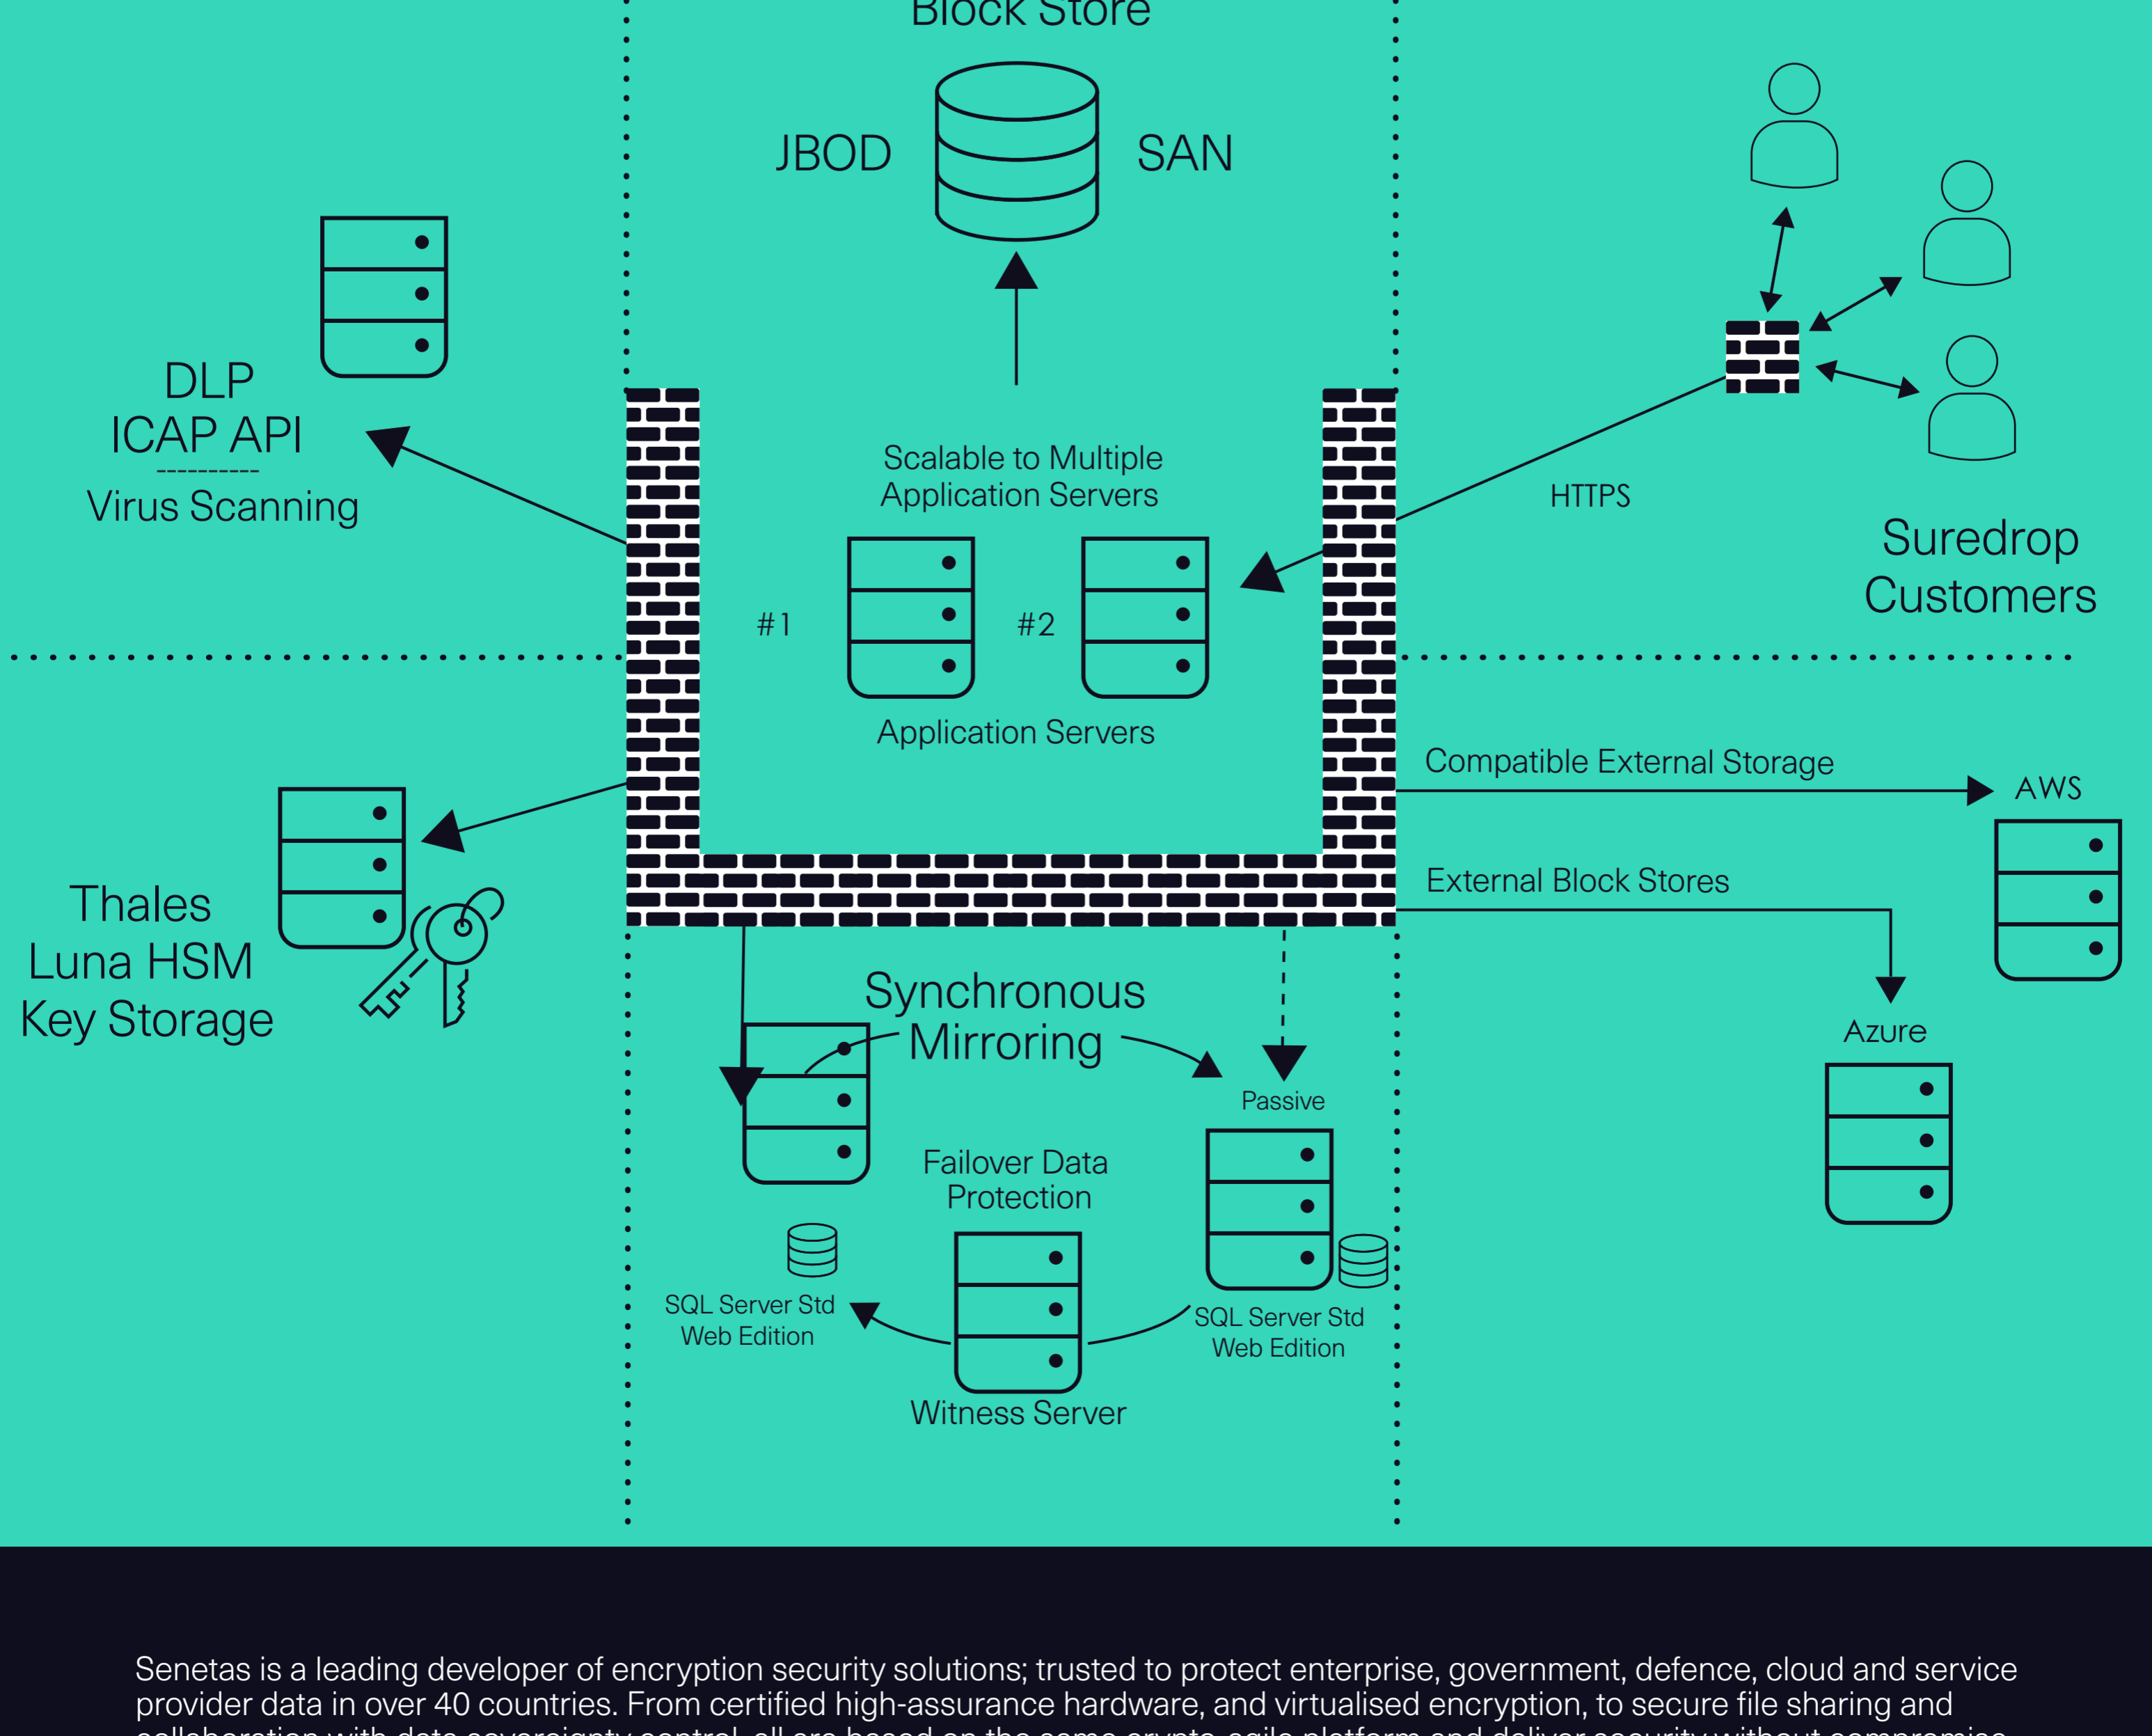

Suredrop for customer on-premises

* Optional external storage service. SureDrop is available with secure file storage or use your own storage.

SureDrop for Managed Service Providers

Senetas is a leading developer of encryption security solutions, trusted to protect enterprise, government, defence, cloud and service provider data in over 40 countries. From certified high-assurance hardware, and virtualised encryption, to secure file sharing and collaboration with data sovereignty control, all are based on the same crypto-agile platform and deliver security without compromise.

THALES

Senetas encryption solutions are distributed and supported internationally (outside Australia and New Zealand) by Thales.

AUCloud

In Australia, SureDrop is hosted exclusively on accredited partner and sovereign cloud IaaS provider, AUCloud. With AUCloud you are guaranteed your data is secured in a protected environment, always.
